

Test Pac 800 Series Portable Hydrostatic Test Units

Designed primarily for use in the offshore oil and gas industry and the harsh North Sea environment, Haskel's new heavy duty and robust Test Pac 800 is a welcome addition to the market.

Standard features include:

- Haskel 8SFD2 Series pumps using tried and tested technology
- Choice of models available up to 25,000 PSI
- Compact light weight design—compared to similar units
- 316 stainless steel frame assembly with lifting lugs and lifting by FLT
- Sloping colour coded 316 stainless steel mimic panel
- Simple operation with clearly laid out control panel
- Strong and robust
- Suitable for oil or water service and many chemical fluids.
- Easy to maintain
- Option of extended warranty available

- Individual pump datasheets and Custom built packages available on request
